Together we will

- * Design a useful application
- * Plan how we're going to make it happen
- * Make it look good and a pleasure to use
- * Learn the basics of programming and systems design
- * Use cool hardware and displays
- * Connect to email, other websites, and services
- * Goof around

Prerequisites

- * No programming experience required!
- * Bring your own laptop or borrow one of ours!
- * A curiosity for how software and systems work
- * A desire to make something fun and useful

Wanted

- * Curious minds and creative hearts
- * Aspiring graphic designers
- * Critical thinkers and problem solvers
- * People who love planning and logic games
- * Old used laptops for donation for the participants (any condition, as long as screen and power cord work)
